Hi Mr Black,

I just wanted to remind you that the building off Reading Road is not to be entered under any circumstances. The cement that was used in the construction was faulty, and the infrastructure is compromised. Basically, it could collapse any minute.

So no one enters, please let your guys know.

Hi Mr Black,

I have just received word from the contractor that one of your guys was in the building when part of it collapsed. I said under **no circumstances** was anyone to enter that building. I've heard he broke his leg.

I'm not liable for this Black, I told you in good time and you ignored it, and now one of your guys is hurt. Good luck dealing with that law suit.
